346 Vallen Mr. Ho / Mr. Cheng

Present: Josie Grant, Matt Rokita, Susan Tilton, Howard Hazen

- I (Susan Tilton) observed members of the "family unit" carrying bags of what appeared to be chop material into the "workshop".
- Workshop was a downstairs carpeted room which appeared to be a den or family room. Everyone present was requested to remove our shoes to protect the carpet in the "workshop".
- Worktable tools appeared new, shiny and unused. They still had price tags etc. and showed no signs of wear.
- Mr. Ho's fabrication of an earring did not result in the same color-ation as the earrings he sold he made

Mr. Cheng made an earring which closely matched the one the said child made.

samples of previously made work did appear to be hand-cut rather than punched a die cut.

Mr Ho did hand make ear wires from niobium wire which matched the samples. There were a questions about the anodizing by Mr. Ho as the coloration was not as defined as on the samples. A second sample was made which was closer, but the edges were still not as definite as the samples. A third sample was made that was fairly close and satisfied the examiners.

The opinion of the examiners is that the applicants do fabricate the metal jewelry and they do anodize the fabricated niobium.

YEN LING CHANG & EAIKO CHOU CHANG.

The samples shown were different from the previous work. Shapes were different except for some of the basic circles and squares. Color was also different, including some which had marbled areas. The marbles were observed to be made from scotch tape. Mr Chang was seen cutting the metal and shaping and drilling. Mrs. Chang did the anodizing, dipping a pair of earrings at a time. Mr Chang also made an ear wire to show he made them as well. Approved for anodized niobium.

Ru Ling CHANG & Chao Ju CHANG - Some of the shapes of the samples shown were different from the previous 2 family units, ~~but~~ Coloration and color patterns were also different. ~~The~~ ~~was~~ Mrs Chang is already licensed for fabricated metal, Mrs Chang is licensed for lead craft. Mrs Chang was observed cutting, filing and sanding an earring and then anodizing, The result was judged to be very similar to the sample shown. Mrs Chang also cut filed & drilled a sample, but his anodizing was not very skilled. It was explained that they could be a family unit of Mrs. Chang did the anodizing and Mr. Chang did the metal work. OK.

Ru Ling Chang was observed making fabricated wire rings with beads OK.

Street Artists Committee Street Check -- October 17, 1992 Minutes

Committee members present: Matthew Porkola, Susan Tibbons, Josie Grant, Wendy McPhee, Marcia Weisbrot

Area toured: all spots along Fisherman's Wharf on Beach, Bay, Hyde, Jefferson & Leavenworth.

A. Suggestions from Street Artists for program improvements:
   1. From Mark Monserrat (graphics/drawings):
      There is space for 2 additional artists on Jefferson near Hyde, 36'8" between 2 driveways, near J1 (J1A), and near standpipe/doors, 40'5". Can Howard come out to check this?
   2. From Bruce (the guy with the decorated straw hats)
      Why don't we stop screening before Christmas, for 1 or 2 months to prevent all these people who "walk on" and crowd the streets at the holidays.

DOWNTOWN HOLIDAY PARKING

The Department of Parking and Traffic is making a concerted effort to ease holiday traffic and parking problems.

- Traffic officers, wearing white hats and white gloves, will be assigned to major intersections in the downtown area.
- Street parking in the Union Square area will be eliminated between Thanksgiving and Christmas to allow for better traffic flow.
- Once a City-owned garage is full an attendant will pass out maps which direct the driver to available garages nearby.
- Special enforcement officers will be on patrol to communicate between the garages and the traffic control officers in order to avoid back up at full garages.
- Radio stations will give garage updates along with their traffic reports.

The Department of Parking and Traffic recommends Sunday and Monday to shoppers since those are the lightest days for downtown patronage.

HOLIDAY STREET ARTISTS

During the holiday season, which is designated November 15 to January 15, the Arts Commission issues seasonal licenses to street artists to sell their products on downtown sidewalks.

This year 64 licenses were issued to artists. Street artists by definition must produce their own products. They may use manufactured components yet the end product must be of their own expression.

A legitimate street artist will display his or her license or will produce it upon request. The license will have the name of the artist, the date of expiration, and a list of products approved for sale by the Commission.

Since there has been a proliferation of illegitimate vendors on the streets recently the Arts Commission has hired an off duty police officer for the holiday season to assure that only licensed artists are selling on the streets. Silk tie vendors and cashmere scarf vendors are examples of non-licensed artists and can be removed by the police.

If you see non-licensed vendors you may report them to the police department, the street artist program of the Arts Commission at 554-9677 or this office at 362-2500. Your cooperation will be helpful to the legitimate artists, downtown merchants and the police department.

Paul
demonstrated he took photos & created collages that were scanned at a shop & then had Rita add typesetting thru Adobe & Apple Macintosh Computer

Susan commented that some of the shirts are "Green Planet" while others are not
Rita - card shows Paul is a sales rep on his card

Rita has demonstrated beyond a doubt her dexterity in her use with Mac Program & use of mouse for freehand work.

Designs are original & Committee has determined that there work is done by them & they are approved

They showed original art ~~dark~~ preparation screens & photos & stats -

Josie & Wendy
suggest that all new designs have chop / name / slogan signature -

- vote to criteria media require signatures most of on all items - printed of painting / ceramic

> Howard suggests
any increases may not be
allowed for a years when all
budgets are being cut -

> Susan commented that Arts
Programs generate the most income.
for city & St. Artists are most visable
to tourists.

> Matt suggests warning slips -

Joanne -
said cuts are being asked
in all areas -
However support from St. Artist
is helpful & recommended
supporting parts -
Committee arguments are:
Every member brings over 20 years
experience
We are doing more work (extra duties, more research)
We have not had increase in
3.5 years
Base rate for all members is
at a minimum twice as much as
compensation
Money is self supporting &
not from General fund
Statements of support from
St. Artists
Due to loss of inspector duties
are increasing
We are doing inspection specific
to our expertise what COPs are

Historically hard to keep committe members Program is a bargain & paid its own way

Reminder - 500 jobs are being provided - and keeping people off welfare rolls - & mandate to votes is being fulfilled by maintenic of program

Cost maintaining
The ~~Value~~ of ~~the~~ ~~Maintenance of~~ the street artist program by ~~the~~ holding ~~a~~ high-level advisory board which meets between 12 - 20 times a year is less than 4% of the revenue yearly generated by the program, as well as approximately ~~the~~ ____ (number) of jobs this program provides as well as the

(board is paid for by the program)

THE COMMITTEE UNANIMOUSLY VOTED TO REQUEST THE ART COMMISSION TO REQUEST THE BOARD OF SUPERVISORS FOR A NEW COMPENSATION RATE OF $75 PER MEMBER, LIMITED TO 25 MTGS./STUDIO VISITS/PER YEAR.

Re: Proposal to increase compensation for advisory board members.

The cost of maintaining the street artist program by having a high level (artists with a strong cross-section of the arts + crafts as their training and professional background) advisory board which meets once a month and does street inspections (total meetings + street or studio inspections not more than 25 a year) is less than 4 % of the revenue yearly generated by the program, and is paid for by the program.

Also it is by a good maintenance of the advisory board, which also determines criteria for each craft sold on the street, keeps a good communication between street artists within the program and the laws by which they must abide.

For over a decade the street artist program has been a unique and model program that not only brings a colorful and arty flavor to the city but acts also as an employer in that street artists occupy their spot sell goods and pay taxes.

Add up here what the request is, (and related hourly charge of examiners?)
